Ready for take-off?

Your career in the tube, cable and wire industry.

wire Düsseldorf | Tube Düsseldorf

More than 2,000 potential employers in one place.

In the competition for new employees, every domestic and international company wants to attract the best of the best. This is good news for you, because in an ideal world, it will allow you to choose between several career options. Regardless of whether you are a young professional or a future graduate.

NEW: visit the High Potential Area!

Drop by! **Get your hands on the latest technology – and take the future home with you!** Get to know many potential employers, all in one place. Gain insights into new technologies. Build your network through personal contact with global companies and discover the next step for your career.

First-hand career expertise.

The High Potential Area is not only shaped by well-known exhibitors, but also enhanced by the participation of renowned institutions from business and industry. As a visitor, you have direct access to them and can address **relevant topics such as application documents, starting salaries and securing experts.**

When and where? Thursday, 16.04.2026
North Entrance Foyer of Messe Düsseldorf Exhibition Centre

You have the chance to make big things happen, because wires, cables and tubes are important elements in a wide variety of industries:

- Automotive
- Iron, steel and non-ferrous metals
- Electricals, electronics
- Construction
- Measurement and control technology
- Chemicals
- Heating, oil, gas and water supply
- Retail, trades and services

One event, many options: free tickets* will be available again in 2026!

- Attend **first-class lectures** on possible career paths for you in a multifaceted environment.
- **The top employers on-site can be recognised** not only in the High Potential Area, but also **via the High Potentials logo** on their booth.
- Browse attractive **job offers on the live job wall.**
- Discover the most exciting employers in the industry with the **High Potential Job Trails.**

* The ticket shop will go live from November 2025.

Supported by:

VDI

We look forward to supporting and accompanying talented young engineers on their career path as part of our participation in the High Potential Day.
