Springs and fastening elements exclusive in hall 16

wire Düsseldorf

GET YOUR TICKET NOW! WIRE.DE/2130

Only at wire:
The entire value creation process

Already in 2024, wire successfully expanded its portfolio and added the end products of fastening elements and springs – and in 2026 in Düsseldorf will present this segment's entire value creation chain again:

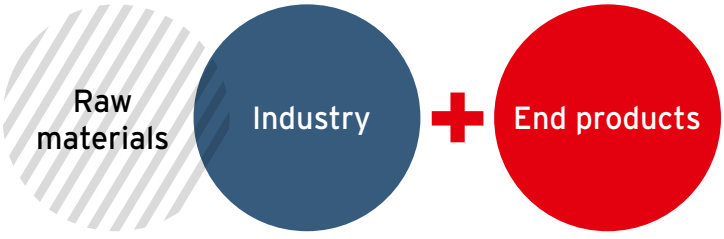
- **Innovators in raw and work materials**
- **Global market leaders for machines and technology**
- **Pioneers in products**

Are you a decision maker or purchaser, and from the automotive or the furniture industry? Experience makers and pioneers when it comes to high-tech springs, structural components, connections, fastenings and fittings of all kinds, shapes and sizes. You can look forward to new inspirations for your business – from nano wires to universal screws made from everything from aluminium to titan, for new procedures from additive manufacturing to Industry 4.0.

Raw material suppliers meet producers meet mechanical engineers meet visitors

At wire, international raw material suppliers, mechanical engineers, producers and purchasers from a variety of industries come together:

- Automotive industry/automotive suppliers
- Electronics and electronic devices
- Energy and power generation
- Heating/ventilation/air conditioning/sanitation
- Civil and underground engineering
- Communication technology
- Light and heavy engineering
- Aviation and aerospace
- Metal goods
- Furniture industry
- Ship building



Decision-makers are at wire – the world's No. 1

Why don't you, too, join in the highest-level meetings for new impulses, networking, professional small-talk and big business!
